regular or decaf!

TECHNICAL DATA	WMF cup & cool	WMF combiNation Chok*	WMF combiNation F2		Cup rack
Rated power	200 W		9,3 kW	13,8 kW	210 W
Hourly output		140 cups	490** cups	560** cups	
Storage urn			2 x 4,0 litres	2 x 4,0 litres	
Hot water output/hour			72 litres	108 litres	
Ground coffee hopper			2 ¥ 2,2 kg	2 ¥ 2,2 kg	
Product reservoir		Approx. 2 kg			
Electricity supply	1/N/PE 50 Hz/230V	No independent supply	3/N/PE 50 Hz/400V	3/N/PE 50 Hz/400V	1/N/PE 50 Hz/230 V
Cups	60 - 120				90 - 140
Milk tank	Approx. 9,5 l				
External dimensions					
Width	350 mm	250 mm	700 mm	700 mm	350 mm
Height with storage urns	604 mm	810 mm	810 mm	810 mm	600 mm
Depth	498 mm	590 mm	590 mm	590 mm	498 mm
Empty weight			Approx. 98 kg		

Technical data subject to change without notice. We recommend the use of a WMF grouts separator. If the local water has a carbonate hardness over 9°, a water filter must be fitted in the supply line to the machine.  
 \* Power and water supply only via WMF combination S oder F  
 \*\* Hourly output including initial reserve

A good idea

WMF combiNation **F2** - two coffee machines in one

The WMF combiNation **F** opened up a new dimension in aromatic filter coffee. Now, the WMF combiNation **F2** goes one step further. With its two big ground coffee hoppers, two 4-litre storage urns and two coffee dispensers, it acts like a second coffee machine.

**The F2 was developed specially for outlets where decaffeinated coffee is available as well as a standard filter coffee product.**

The high hourly output of up to 560 cups and the enhanced performance and flexibility give you additional assurance of being well prepared for any eventuality.

Four automatic and two manual brewing programs can be selected via the touch screen display, to meet demand.

Should the coffee happen to be kept for an extended time before dispensing, the efficient temperature control on the storage urns ensures that the coffee quality will still be amazingly good.

Two 2.2 kg ground coffee hoppers

Two 4 litre storage urns
